# 2.dragen v4.2 安装

https://sapac.support.illumina.com/downloads/illumina-dragen-bio-it-platform-v4-2.html

# 3.docker 镜像下载

dragen v4 硬件服务器默认安装 docker, 建议安装 Docker v20.10 or later, 数据分析需要安装 2 个额外的 docker 包:

```
snpeff.tar
covlineages_pangolin.tar
```

服务器路径: /staging/explify\_china/Docker

安装方式一: (后台命令行)

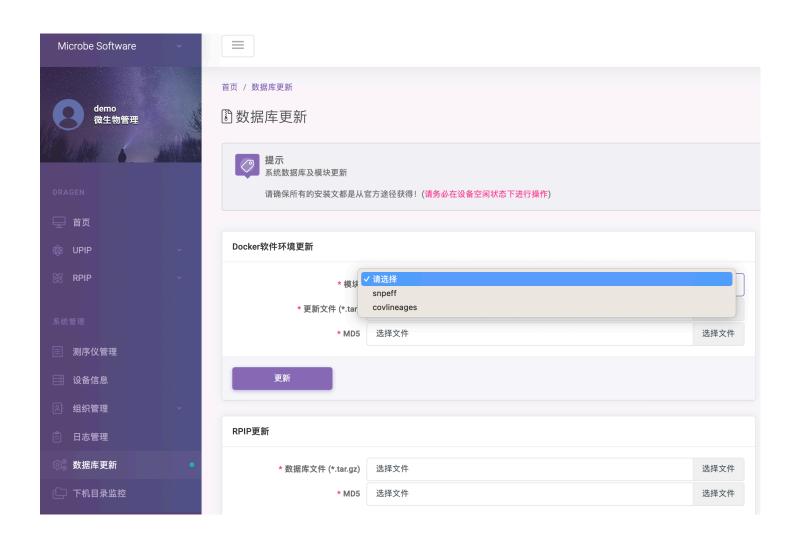

docker load -i snpeff.tar
docker load -i covlineages\_pangolin.tar

安装方式二: (前端页面上传) 浏览器输入并输入用户名以及对应密码
